## ASSURANCE GDS PICKPEN PIPETMAX

Flexible automation  
for Assurance GDS<sup>®</sup>  
at a size and price  
accessible to any lab

- Increases lab workflow efficiency and flexibility
- Reduces operational and labor costs
- Improves sample prep consistency and accuracy

# OPTIMIZE YOUR WORKFLOW WITH ASSURANCE GDS AUTOMATION

The Assurance GDS PickPen PipetMAX (PPMX) automates GDS sample preparation including PickPen Immunomagnetic separation (IMS) to improve workflows and increase productivity.

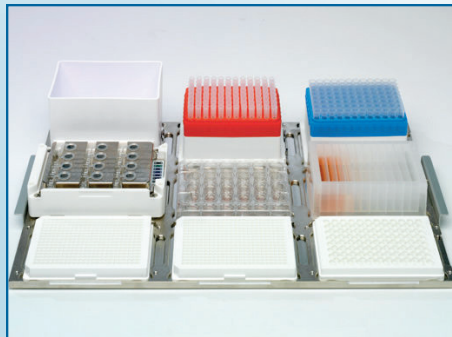

- Flexible modular design accommodates existing lab layout and workflows
- Small footprint saves valuable lab bench space
- Reduces sample prep labor by up to 50%
- Removes user variation and standardizes results
- Efficient protocols for small and large runs to maximize productivity

Assurance GDS PPMX handles the routine allowing you to focus on other critical laboratory tasks

Select assay and enter number of samples

Load reagents and disposables

Let automation do the work for you
